All meters are in
one cabinet

NOTES:

- ✓ The above demonstrates one concept of many
- ✓ Each project shall go feasibility study. The feasibility study recommends optimal investment and ROI forecasts
- ✓ Applicable for all new or existing both residential or commercial projects

BENEFITS TO THE INVESTOR:

- ✓ Minimal changes to the building wiring
- ✓ Gets payment for all power generated by the inverter
- ✓ Receives **up to 17c** per kWh exported to the grid **plus circa 28c** per kWh exported to residents
- ✓ Paid quarterly to nominated banks account
- ✓ NIL billing admin. Power Edge does it all.
- ✓ Building becomes more attractive to rent / lease / sell
- ✓ Overall superior ROI: typically 4-6 years

BENEFITS TO THE TENANT / RESIDENT / UNIT OWNER:

- ✓ Guaranteed superior power rates from grid than current
- ✓ **Approx. 3c** per kWh discount for power used from solar
- ✓ Cheaper body corp fees or daily power rates
- ✓ Green Living without any initial or ongoing costs
