

PowerEdge
Ethical energy

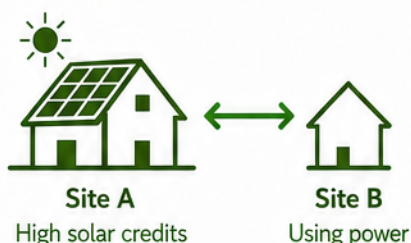

SOLAR SHARE

Solar Share allowing you to share
the solar energy generated with other sites

1 OPTION 1

Both sites on the same account

If both sites are on the same account, and one of them is generating high solar credits, while the other site is using power, by having both on the same power account they may cancel each other.

Classic examples:

a house and a holiday home
or family members

ADVANTAGE

The entire solar credits
incl the GST component
are deductible.

2 OPTION 2

Two separate accounts with
inter-account solar credit transfer

The parents are allocating their solar credits
to the siblings to assist them with their power bill.

EXAMPLE

Parents Power Bill

Location A

Solar Credit	-\$59.23
Other Charges	\$5.01

Total (incl. GST) **-\$54.22**

**Credit allocated
to siblings \$54.22**

Siblings Power Bill

Location B

Bill before credit	\$118.72
Solar Share credit	-\$54.22

Total to pay \$64.50

- All parties have to be with Power Edge
- There is a \$5 per month admin fee

ADVANTAGE

Solar Share to support others
that is allocated automatically.

Support your family. Reduce bills. Make the most of your solar.

Solar Share makes it easy to share the benefits of your solar energy
with the people who matter most.
